

```
interface HelloWorld
{
public default void display()
{
System.out.println("Here we can Display ----->HelloWorld");
}
}
interface WelcomeToJava
{
public default void display()
{
System.out.println("Here we can Display ----->WelcomeToJava");
}
}
public class Diamond implements HelloWorld, WelcomeToJava
{
public void display()
{
HelloWorld.super.display();
WelcomeToJava.super.display();
}
public static void main(String args[])
{
Diamond obj = new Diamond();
obj.display();
}
}
```
